

## 2.2 Read\_csv\_import

March 4, 2025

```
[49]: from pyspark.sql import SparkSession
import json

#importar este CVS
import csv
```

```
[50]: # Criar uma sessão Spark
spark = SparkSession.builder.appName("CSVExample").getOrCreate()
```

```
[52]: # Read um CVS
csv_filename = "CSV/review.csv"
df = spark.read.csv(csv_filename, header=True, inferSchema=True)
```

```
[1]: # Mostrar os dados
df.show()
```

```
-----
NameError                                Traceback (most recent call last)
Cell In[1], line 2
      1 # Mostrar os dados
----> 2 df.show(5)

NameError: name 'df' is not defined
